SHAPING THE FUTURE OF INDUSTRIAL EXPLOSION PROTECTION

# INDEX SAFETY SYMPOSIUM 2011

ON INDUSTRIAL EXPLOSION PROTECTION

information +++ [www.ind-ex.info/mumbai](http://www.ind-ex.info/mumbai) +++ more infor-

## **Dust Explosions are becoming more and more a serious threat in India.**

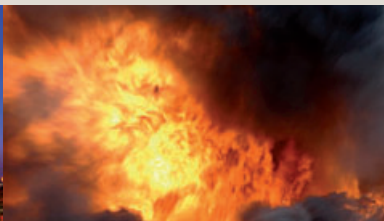

Not only that such a hazardous event damages process equipment and may cause injuries to personnel but your business is interrupted and your company loses profit. Further to that, insurance premiums go up while your reputation goes down.

Make sure you're safe when having a dust explosion. Because the explosion doesn't care what kind of powder you are handling. Any combustible dust may explode and cause serious damage to your plant and people.

## **THIS WORKSHOP gives you a far deeper insight into the topic**

### **„DUST EXPLOSION PROTECTION“**

You learn how to prevent explosive conditions and how to minimize impact from explosion flames and pressure shocks.
